

Embrace the Digital Future with **incadea's Cloud Hosting Solution**

incadea utilizes Microsoft Azure to ensure the backing of a world class service to support our products and customer's ecosystem, deployed in strategic locations to ensure the best cost to performance ratio as needed by our customer base.

Scalability to meet our diverse customer needs has helped us to define our proprietary hardware/infrastructure sizing based on comprehensive testing scenarios to ensure best performance for the applications and environment.

Compliant with both ISO/IEC 27001:2013 and TISAX assures our customers security with additional bespoke hardware, SLA's, backups, and failovers.

Business areas depending on their priority can have priority focus. By default, incadea cloud RTO (Recovery Time Objective is 12h, with default SLA of 99.5%, relying on Microsoft Azure SLA) which can cover various emergency scenarios.

incadea presents a modern approach to technology, empowering OEMs, importers and dealerships accelerate business productivity and user experience.

Let's build great customer experiences together.
